

After-School Program  
I.S. 276

MANHATTAN YOUTH

## ABOUT OUR PROGRAM

**W**elcome to a world of sports, arts, homework help and other extracurricular activities! Joining the Manhattan Youth after-school program at I.S. 276 gives your child a safe place to go every day after school where he or she can complete homework assignments, play for the school's sports teams, perform full-length plays, learn to cook, compete in citywide robotics competitions and more, all for a low cost of \$100 per month. Scholarships are available for qualifying families.

### DAILY SCHEDULE

#### 2:50 - 3:10 pm: Check-in and Snack

At school dismissal, all students enrolled in the program come to the school cafeteria, where they will check in with program staff and receive a snack.

#### 3:15 - 4:30 pm: Study Lab

All students proceed to the library, where our staff will help them complete the day's homework assignments.

#### 4:30 - 6:00 pm: Club Time

Once homework is done, the fun really begins. Students have an opportunity to participate in team sports, theater, Lego robotics, songwriting, ceramics, cooking, dance, film/video production, music and more. Check out the activity selection page for a daily menu of activities.

Our boys' and girls' sports teams will represent I.S. 276 in Manhattan's competitive middle school leagues. Sports will include soccer and volleyball in the fall, basketball and wrestling in the winter, and baseball, softball, and track & field in the spring.

### STUDY LAB

It is a priority of our after-school program to make sure our students are doing their homework completely, and keeping up with their class work and studies. To that end, we offer a quiet place to work, supervised by teachers and college students, with access to computers and other educational resources, to every enrolled after-school student every day.

### TEAM SPORTS

Manhattan Youth will handle all aspects of the competitive interscholastic sports program at I.S. 276 from coaching and instruction to organizing league play. We encourage all students to enroll in the sports program. With no 7th or 8th graders in the school this year, our 6th graders will receive all the individualized attention, on-court game time, and team-building experiences that will lay the groundwork for a very successful middle-school and high-school sports career. Sports include soccer and volleyball in the fall, basketball and wrestling in the winter, and baseball, softball and track in the spring. Please note: anyone who plans to join the basketball team in the winter must attend the Monday basketball clinic in the fall.

### THEATER

The Manhattan Youth Players of I.S. 276 will produce a full length play every semester. Plays selected for performance will alternate between classical and contemporary works, often involving original text and music created with the students.

### CERAMICS

A fun and professional class in techniques of clay-building. Individual projects include teapots, lidded vessels, self-portraits in clay, mugs, boxes, dishes, vases, masks, and more.

### INTERNATIONAL COOKING

Students will learn to cook while being immersed in culture and cuisine from around the world.

### SONGWRITING

Students learn to create music and poetry from their experiences and imaginations. The songwriting workshop is liberating and empowering to the students. It is an opportunity to express, share and communicate their worlds.

### HIP HOP

A high-energy, intense class for dancers of all experience levels. The dance studio will be hopping to today's pop stars as students learn individual and teamwork skills that evolve into polished dance numbers. Everyone is welcome, from beginners to experts. Theater students are encouraged to attend.

### ROBOTICS

A little creativity, a little computer programming, and a lot of fun! Students learn to build, program and operate specialized robots out of Lego, and attend citywide robotics competitions! Check out [www.usfirst.org/roboticsprograms/fll/](http://www.usfirst.org/roboticsprograms/fll/) to read about this year's challenge!

### JEWELRY MAKING

Students in this class can create small scale original works of ornamental art that look like professionally made jewelry!

### CARTOONING

Students in this class can develop visually-striking works whose scope ranges from single-panel comics to cinematic storyboards to graphic novels. This workshop develops artistic and literacy skills in a fun environment, working with an increasingly influential art form.

## I.S. 276 SPORTS TEAMS

Manhattan Youth is coordinating and staffing I.S. 276 sports teams as part of the after-school program. Any student who signs up for team sports activities will play competitive games against other Manhattan middle schools. They will be representing I.S. 276 and Manhattan Youth.
